Mr. Fonda's Classroom Agreement:

Our Technology & Kindness Agreement

When we use technology, we promise to:

1. **Use tech to learn first.**
   I will use my device and apps to help me learn, not to distract myself or others.
2. **Protect myself and others.**
   I will keep my passwords and personal information private and never share someone else's info.
3. **Be kind with my words—always.**
   I will use respectful words in chats, comments, emails, and posts, even when I disagree.
4. **Include others, not leave them out.**
   I will invite classmates to work and play fairly online and help everyone feel like they belong.
5. **Think before I click or post.**
   I will stop and ask, "Is this safe, kind, and true?" before I click, send, or share anything.
6. **Follow our school tech rules.**
   I will take care of devices, follow my teacher's directions, and use only approved websites and apps.
7. **Show who I am in positive ways.**
   I will use projects and posts to share my ideas, culture, language, and interests in a respectful way.
8. **Use tools that fit how I learn.**
   I will try different tools and settings (like font size, audio, visuals) to help myself learn best.
9. **Help others, not show off.**
   I will help classmates with technology in a friendly way and never make anyone feel small or embarrassed.
10. **Be safe and respectful everywhere.**
    I will follow these expectations at school, at home, and anywhere I use technology.
